

PRESS RELEASE

Ring in the new

Hepworth Acoustics celebrates the end of a highly successful year by launching a new image, which can be seen throughout the firm's company literature, but most markedly in its re-designed and re-christened company newsletter, superSONIC, and comprehensive new website, well worth the visit at www.hepworth-acoustics.co.uk.

Over the past year Hepworth Acoustics has opened new offices in Birmingham and London, has taken on a number of highly-qualified new staff, strengthening both its consultancy and noise-mapping teams, and has won numerous new contracts, including three major noise-mapping projects under the Noise Mapping England initiatives. Also founder Peter Hepworth was elected as the new chairman of the Association of Noise Consultants.

This glowing year for Hepworth Acoustics is reflected in the clarity, effectiveness and elegance of the new branding. A company to watch over the coming months, and, given its attractive new appearance, it will be a real pleasure to do so.
