

PRESS RELEASE

Hepworth Acoustics' Latest Round of Expansion

10 October 2008: Leading Acoustics consultancy Hepworth Acoustics Ltd is continuing its impressive expansion plan with the opening of two new offices in September 2008, Plymouth and Leeds.

Both openings are necessary to satisfy demand as Hepworth Acoustics continue the growth that has required a new location to open every year since 2004. Graham Bowland will be looking after the Plymouth office and Chris Parker leads in Leeds.

The new offices will mean quicker response times to customers and sites in the South West and in the conurbations east of the Pennines, which will help Hepworth Acoustics deal with the increasing demand for their services. Both offices will deliver all of Hepworth Acoustics' services including ANC accredited sound insulation testing.

Hepworth Acoustics provide acoustics consultancy for corporate, public and private clients throughout the United Kingdom. Started by Peter Hepworth in 1990, Hepworth Acoustics has grown consistently and in a planned manner. The opening of the offices will take the number of locations in the UK to eleven and Peter Hepworth is pleased by the development of the company.

"The opening of the offices is an important part in the long term strategy of the company," says Peter. "We have always concentrated on providing local offices to deliver excellent service to a wide variety of clients. This steady and

consistent growth fits in with our goal to provide the whole of the UK with quick access to consistent high quality acoustic consultancy services."

ENDS

Hepworth Acoustics is one of the largest independent acoustics consultancies in the United Kingdom. The head office is in Warrington and the company operates from eleven regional offices. The company specialises in environmental and building acoustics as well as noise mapping. More information on all aspects of acoustics consultancy are available at www.hepworth-acoustics.co.uk .
